

COVID-19 GUIDANCE – WHEN TO Return to Campus Checklist

Scenario #1

YOU TESTED POSITIVE FOR COVID-19

Do you have SYMPTOMS?

YES

NO

**ISOLATE - DON'T GO TO
CAMPUS FOR 10 DAYS**
from the date of your test

**QUARANTINE - DON'T GO
TO CAMPUS FOR 14 DAYS**
from the date of your test

NO

*Has it been at least
10 days since your
symptoms began?*

*After 14 days
are you symptom free
of COVID-19?*

NO

YES

YES

*Have you been fever
free for at least
24 hours without
using fever-reducing
medications?
AND
Have all your
other symptoms
gone away?*

**You may return
to campus.**

NO

YES

**You may return
to campus.**

COVID-19 SYMPTOMS

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Isolation is what you do if you have COVID-19 symptoms, or have tested positive. Isolation means you stay home and away from others (including household members) for the recommended period of time to avoid spreading illness.

Quarantine is what you do if you have been exposed to COVID-19. Quarantine means you stay home and away from others for the recommended period of time in case you are infected and are contagious. Quarantine becomes isolation if you later test positive for COVID-19 or develop symptoms.
